

Chips production line

薯片生产线

The production line consists of cleaning, peeling, cutting, rinsing, blanching, dewatering, frying, deoiling, flavoring and packaging. It can be used for making potato chips, potato fries, plantain chips, yam chips, cassava chips, etc.

1. The whole process is based on technology accepted world-wide, modifications are incorporated to meet local conditions.
2. This electric potato chips making machine is of low investment and high profits.
3. The potato chips' machinery is energy-saving, small in size and easy to maintain.
4. Professional personnel gives full-course guidance and installation, and we also provide free training for operators.

该生产线由吊装系统、去皮清洗、拾取、切割、吊装系统、除杂、清洗等组成。可以用来制作土豆、甘薯、胡萝卜等。

1. 整个过程以世界通行的技术为基础，根据当地条件进行修改。
2. 本发明投资少，效益高。
3. 土豆法机节能，体积小，维修方便。
4. 专业人员全程指导安装，并免费培训操作人员。

Potato processing line

土豆加工线

French fries production line

薯条生产线

The production line consists of cleaning, peeling, cutting, rinsing, blanching, dewatering, frying, deoiling, flavoring and packaging. It can be used for making potato fries, potato fries, yam fries, cassava fries, etc.

1. The whole process is based on technology accepted world-wide, modifications are incorporated to meet local conditions.
2. This electric potato fries making machine is of low investment and high profits.
3. The potato fries' machinery is energy-saving, small in size and easy to maintain.
4. Professional personnel gives full-course guidance and installation, and we also provide free training for operators.

该生产线由清洗、去皮、切割、漂洗、漂烫、脱水、油炸、去油、调味、包装等部分组成。
 可用于制作薯条、薯条、山药条、木薯条等。

1. 整个过程以世界通行的技术为基础，根据当地条件进行修改。
2. 该电制薯条机投资少，效益高。
3. 该薯条机械节能、体积小、维护方便。
4. 专业人员全程指导安装，并免费培训操作人员。
